Subject: Application for the position of [Intern]

Sir

By means of this letter and the attached CV , I would like to submit my profiloe to you and express my motivation to exercice the functions of [Intern] within your [Scientific research and innovation and computer science development].

After an education of 3 years in the institute of informatics "ISITCOM" in the specialty computer science and multimedia and during my last experiences , i did various trainings in the field of IT , where i was able to acquire and develop solid knowledge in [Angular , Spring-Boot , JEE , Machine learning with python , NodeJs] among others , that i would like to share with you and continue to deepen within a dynamic and stimulating team .

During my last experiences at [Association of Scientific research and innovation «ARSII » , I also had the opportunity to contribute to the development of different projects , which is my continuing to work on launching new ideas and learning along side a new team motivates me enormously.

I will be delighted to meet you in the future so that I can talk about your business and the proposed mission.

While thanking you for the time which you will have kindly given to my letter, I ask you to accept sir, my cordial greetings.

[Akkari Chérifa]
